

TECHNICAL APPLICATION OF SOLAR PHOTOVOLTAIC (PV) SYSTEM

29th September – 5th October 2020
TNB Integrated Learning Solution – ILSAS, Bangi, Malaysia

Organised by:

Objective:

To provide training and sufficient skills to who are involved in the installation, operation and maintenance of the Solar Photovoltaic System.

Target Participants:

Engineer working in a power plant or utility industry especially Renewable Energy (RE) fields with technical skills

Course Content

- Renewable Energy Program in Malaysia
- TNB Sustainable Green Initiatives
- How Solar Cell Works
- Introduction of Grid-Connected Photovoltaic (GCPV) System
- GCPV System Safety
- Installation of GCPV System
- Solar Power Generation Interconnection
- Solar Operation and Maintenance
- Testing and Commissioning

Methodology

Lectures, video, group discussion, hands-on, technical visits

Complimentary

2 days' entry to International Conference of Learning & Development (ICLAD 2020) on the 6th – 7th October 2020. More information on ICLAD , visit <https://iclad.com.my/>

ABOUT TNB ILSAS

TNB Integrated Learning Solution – ILSAS is a premier technical training institute committed towards providing excellence in training and services. In line with that, ILSAS works with experts in the field of power utility engineering and a complete range of facilities. ILSAS is a wholly owned subsidiary of Tenaga Nasional Berhad, the largest power utility company in Malaysia.

As Malaysia's leading power utility trainer, ILSAS offers a broad range of specially tailored learning solutions that take knowing through its necessary next step: getting it done; by knowing what to do, how to do it, when best to do it, and doing it as it's supposed to be done.

We do it with the latest teaching methods, a vast pool of qualified and experienced trainers, having access to effective training tools and high-investment environments, and in full accordance with global industry standards, technological and regulatory.

ABOUT MTCP

The Malaysian Technical Cooperation Programme (MTCP) was first initiated at the First Commonwealth Heads of Government Regional Meeting (CHOGRM) for Asia Pacific Region in Sydney in February 1978. It was officially launched on 7 September 1980 at the 2nd CHOGRM in New Delhi, India, to signify Malaysia's commitment to South-South Cooperation, in particular Technical Cooperation among Developing Countries (TCDC).

In line with the spirit of South-South Cooperation, Malaysia through the MTCP shares its development experiences and expertise with other developing countries. The MTCP was first formulated based on the belief that the development of a country depends on the quality of its human resources. The programme forms part of the commitment of the Malaysian Government towards the promotion of technical cooperation among developing countries, strengthening of regional and sub-regional cooperation, as well as nurturing collective self-reliance among developing countries.

The MTCP emphasises the development of human resources through the provision of training in various areas which are essential for a country's development such as public administration, good governance, health services, education, sustainable development, agriculture, poverty alleviation, investment promotion, ICT and banking. Since its inception in 1980, more than 34,000 participants from 144 recipient countries have benefited from the various programmes offered under the MTCP. More information at MTCP website : <https://mtcpcoms.kln.gov.my/>

Objectives of MTCP

- Share development experience with other countries
 - Strengthen bilateral relations between Malaysia and other developing countries
 - Promote South-South Cooperation (SSC)
 - Promote Technical Cooperation among Developing Countries
-
